

Stakeholder Management in Oil & Gas Corporate Governance

Course Introduction:

This 5-day theoretical training course, "Legal Essentials for the Oil & Gas Industry," is designed to equip participants with a comprehensive understanding of the legal frameworks, contracts, and compliance requirements that govern oil and gas activities.

Throughout the course, participants will explore critical topics such as contract negotiation, regulatory compliance, environmental considerations, and dispute resolution mechanisms specific to the oil and gas sector. Emphasis will be placed on the interplay between legal principles and practical applications, helping attendees develop the skills needed to navigate the complexities of oil and gas law effectively. By examining real-world case studies and industry best practices, participants will gain valuable insights that will enhance their ability to make informed decisions and mitigate legal risks in their organizations.

Course Objectives:

By the end of the program, participants will be able to:

- Understand the foundational legal principles applicable to the oil and gas industry.
- Learn about key contracts and agreements used in oil and gas transactions.
- Explore regulatory frameworks and compliance requirements relevant to the sector.
- Analyze environmental laws and their implications for oil and gas operations.
- Familiarize participants with dispute resolution mechanisms and industry best practices.

Who Should Attend?

This course is intended for Legal professionals working in the oil and gas sector, Petroleum engineers and project managers, Compliance officers and regulatory specialists and Business development and contract negotiation teams.

Course Outline:

Day 1: Introduction to Legal Frameworks in Oil and Gas

- Overview of the legal environment governing the oil and gas industry
- Key definitions and concepts in oil and gas law
- Historical context and evolution of legal practices in the sector

Day 2: Contracts and Agreements in Oil and Gas Transactions

- Examination of essential contracts (e.g., joint venture agreements, production sharing contracts)
- Discussion of negotiation strategies and key terms in oil and gas contracts
- Understanding the role of stakeholders in contract management

Day 3: Regulatory Compliance in the Oil and Gas Sector

- Overview of regulatory bodies and frameworks governing oil and gas operations
- Discussion of compliance requirements for exploration and production activities
- Understanding health, safety, and environmental regulations

Day 4: Environmental Law and Impact Assessment

- Exploration of environmental legislation affecting oil and gas operations
- Best practices for conducting environmental impact assessments
- Discussion of liability issues and compliance with environmental standards

Day 5: Dispute Resolution and Risk Management

- Review of dispute resolution mechanisms in the oil and gas sector
- Examination of risk management principles and strategies
- Exploration of case studies highlighting successful legal practices and compliance strategies

Course Methodology:

A variety of methodologies will be used during the course that includes:

- (30%) Based on Case Studies
- (30%) Techniques
- (30%) Role Play
- (10%) Concepts
- Pre-test and Post-test
- Variety of Learning Methods
- Lectures
- Case Studies and Self Questionnaires
- Group Work

Course Fees:

To be advice as per course location. This rate includes participant's manual, Hands-Outs, buffet lunch, coffee/tea on arrival, morning & afternoon of each day.

Course Certificate:

International Center for Training & Development (ICTD) will award an internationally recognized certificate(s) for each delegate on completion of training.
