- Warehousing in Logistics
- Vehicles and Material Handling and Supply Chain Systems Equipment
- Warehouse Activity Profiling
- Performance, Cost, and Service Measures
- Warehouse Layout and Design

Who Should Attend?

- Warehouse and Distribution Managers
- Material Handling and Material Management Personnel
- Industrial Engineers

Course Outline:

- Warehousing in Logistics
- Vehicles and Material Handling Systems Equipment
- Warehouse Activity Profiling
- Performance, Cost, and Service Measures
- Warehouse Layout and Design
- Order Picking
- Receiving and Put away
- Storage and Retrieval Systems
- Slotting
- Packaging perspectives
- Various types of products storing procedure
- Paperless Warehousing
- Warehouse Management Systems
- Container Design and Selection
- Dock Operations
- Third-Party Warehousing

- Workforce Management
- Customer Focus Supply Chain
- Warehouse Planning and Design
- Site Selection Process
- Future Trends in Warehousing
- Supply Chain performance Achieving Strategic fit
- Supply chain drivers and obstacles
- Terms used in Supply Chain
- Customer Focused Supply Chain
- Storage System Functions
- Storage Alternatives
- Materials Handling Consideration
- Storage System Costs and Rates
- Planning and Design and Operation
- Types of Warehouse
- Warehouse Operation
- Sites Selection Process
- Third party warehousing
- Materials Handling System Design
- Material Handling
- Packaging Perspective
- Packaging Damage Protection
- Packaging Material Handling Efficiency
- Alternative Materials for packaging
- Define Order Processing
- Other factors affecting order processing
- Logistic Information System
- Warehouse Management System and automation components
- Various types product storing procedures. Dry food, Perishables, Clothing, Machineries, Tele Communication Equipment, Tele Communication Equipment, Fuel and Petroleum, Documents, Explosive, Technical Products.

Course Certificate:

International Center for Training & Development (ICTD) will award an internationally recognized certificate(s) for each delegate on completion of training.

Course Methodology:

A variety of methodologies will be used during the course that includes:

- (30%) Based on Case Studies
- (30%) Techniques
- (30%) Role Play
- (10%) Concepts
- Pre-test and Post-test
- Variety of Learning Methods
- Lectures
- Case Studies and Self Questionnaires
- Group Work
- Discussion
- Presentation

Course Fees:

To be advised as per the course location. This rate includes participant's manual, and-Outs, buffet lunch, coffee/tea on arrival, morning & afternoon of each day.

Course Timings:

Daily Course Timings:

08:00 - 08:20	Morning Coffee / Tea
08:20 - 10:00	First Session
10:00 - 10:20	Coffee / Tea / Snacks
10:20 - 12:20	Second Session
12:20 - 13:30	Lunch Break & Prayer Break
13:30 - 15:00	Last Session
